Our People

We Continue to Drive a Performance & Growth Culture

- 1 Drive a performance and growth culture transformation that builds a highly engaged, innovative and accountable workforce.** We will drive initiatives that, over time, will create higher employee engagement that correlates positively with growth, profitability and shareholder value creation.
- 2 Strengthen our senior talent pipeline** by identifying, selecting, assessing and accelerating the development of the next generation of senior leaders and provide premier, differentiated talent development experiences to our next generation of leaders at all levels.
- 3 Strengthen the link between pay and performance** by linking employee compensation to specific measurable personal, functional and company results and OneMSCI behaviors.
- 4 Create an environment where all MSCI colleagues can truly be their authentic selves and thus contribute at their maximum potential** by strengthening and promoting our culture of inclusion and diversity.
- 5 Design the MSCI Corporate workplace (physical and virtual) to enable strong OneMSCI collaboration and improved communication and productivity** by ensuring MSCI has the capacity to fuel the company's growth and resiliency of its critical locations.
- 6 Continue to strengthen our innovative culture** through behaviors and practices that promote collaboration, feedback and a deep understanding of our internal/external customers, resulting in superior outcomes for MSCI.

We Regularly Focus on Senior Leader Progression Planning and Talent Management

Talent management is a top priority

- Annual review by the Board of talent management and progression plans.
- The CEO and President regularly meet with every function to review their talent plans.
- Discussions aim to identify top talent who have the most potential to progress to senior-most roles and enable MSCI to achieve its strategy.
- Appropriate action plans are created to ensure we are developing the next generation of leaders.

Integrated talent management

Continuing to Evolve and Thrive in Changing Times

Transparency of Communications remains key

We enhanced our ability to communicate with our global workforce and are keeping pace with the changing needs of our people, posting more communications highlighting employee assistance programs supporting mental health and emotional well-being.

Embracing the Future of Work and new “Normal”

Adopted a permanent “hybrid” model – known as Future of Work@MSCI (FOW@MSCI). FOW@MSCI unites our strong culture with modern ways of working to give employees the accountability, responsibility and empowerment to perform at their very best. This is a unified pursuit of the highest performing operating model with the client at the center, rather than an individual perk or benefit.

Leveraging Employee Resource Groups for Inclusion

Our Executive Diversity Council and Employee Resource Group leaders created a sense of community and belonging for our employees, uniting our diverse talent around the globe through Candid Conversations on diversity, equity & inclusion (DE&I) topics, expanded modes of communication and broader participation in DE&I events/initiatives.

Taking the pulse on engagement

Engagement has improved significantly since 2011. As of November 2020, the number of respondents that are fully engaged continued to increase by 74%, or 31 percentage points since 2011. Fully engaged employees are those who agree or strongly agree with all eight of the “overall company experience” questions.

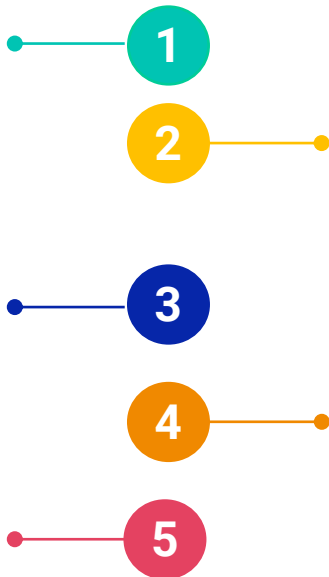

Health and safety first

We are continuously adjusting to a working world where we learn to live with the pandemic. MSCI continues to prioritize the well-being of its global workforce. In 2021, we offered vaccination clinics for employees and their families, and continued to provide resources to help manage stress and care for individuals and their families. MSCI continues to offer ergonomics workshops that focus on how to configure home workspace for optimal health, comfort and performance.

Shareholder Alignment and Engagement

Enhancements to the compensation program meant to further align interests of management with that of shareholders

What we heard	What we did	Why
Eliminate relative TSR CAGR	Since 2019, PSU awards will vest and be performance adjusted based solely on rigorous absolute TSR CAGR goals	Absolute TSR CAGR is an all-encompassing measure of Company performance that does not divert focus from any individual strategic priority Metric complements the performance measures under our AIP which directly tie to the Company's annual Operating Plan and strategy
Performance period should not be extended another six months for performance shares	Since 2019, eliminated "retesting" feature in all PSU awards	Increases management's accountability
Shareholders indicated they prefer that a majority of our CEO and President's long-term incentive awards be performance-based	CEO – 100% PSUs in 2019, 2020 and 2021 President – 100% PSUs since 2020 award	CEO and President should be primarily rewarded for increasing absolute shareholder value which reinforces our "owner-operator" philosophy and is aligned with executing our strategic plan
2021 3-Year PSUs	Added a 1-year post vest holding period	Further aligns management with shareholder interests

Accountability and Compensation Governance

What we do

- ✓ Emphasize variable compensation
- ✓ Have formula-based annual cash-incentives
- ✓ Subject equity awards to vesting requirements
- ✓ Impose stock ownership guidelines on directors and Executive Committee members
- ✓ Maintain clawback policy incentive-based compensation (cash and equity)
- ✓ Provide for double-trigger vesting upon a change in control
- ✓ Have restricted dividend equivalents on performance vesting awards that are only paid if and when underlying award vests
- ✓ Grant CEO and President & COO equity entirely in PSUs tied to multi-year absolute TSR
- ✓ Retain independent compensation consultant at direction of the Compensation, Talent and Culture Committee

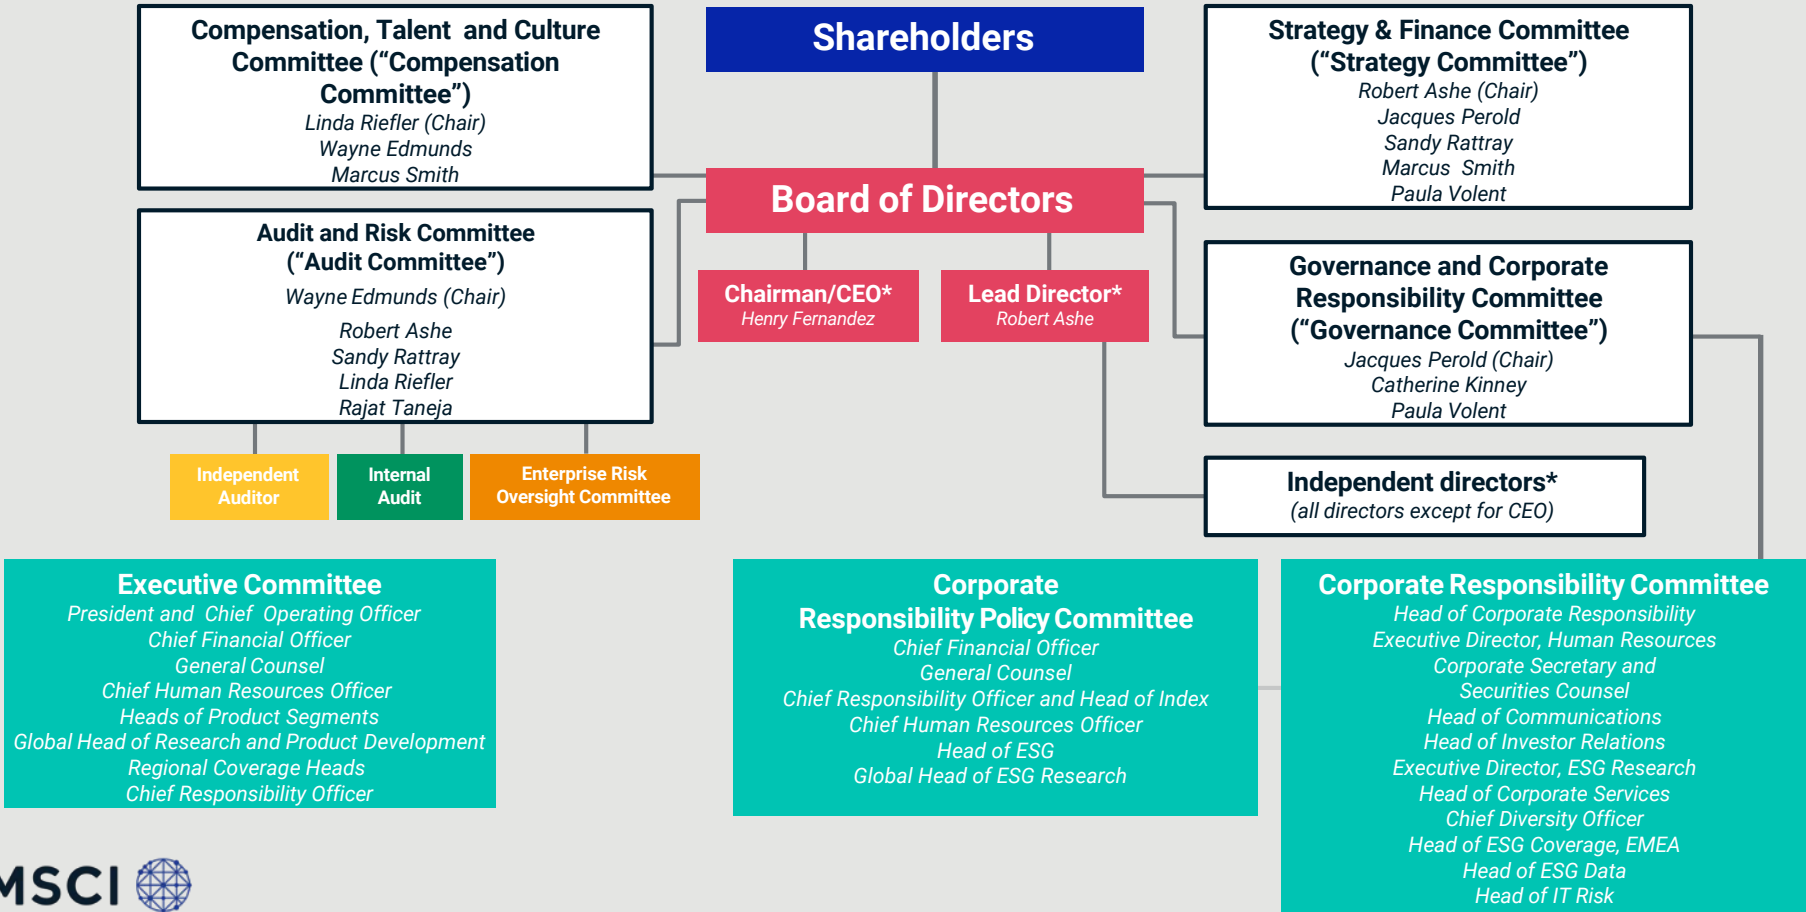

What we don't do

- ✗ Do not provide gross-ups to cover excise taxes
- ✗ Do not have employment agreements with executive officers
- ✗ Do not allow directors or employees to hedge or pledge company stock, engage in short sales, purchases or sales or options, puts or calls, as well as derivatives, such as swaps, forwards or futures or trade on a short-term basis on company stock
- ✗ Do not allow repricing of options or stock appreciation rights awards without shareholder approval
- ✗ Do not provide for "liberal" share recycling when shares are tendered or withheld to satisfy tax withholding obligations or as payment of an option exercise price

Supplemental Information

- Percentage changes and totals in this presentation may not sum due to rounding.
- Foreign currency exchange rate fluctuations reflect the difference between the current period results as reported compared to the current period results recalculated using the foreign currency exchange rates in effect for the comparable prior period. While operating revenues adjusted for the impact of foreign currency fluctuations includes asset-based fees that have been adjusted for the impact of foreign currency fluctuations, the underlying assets under management (“AUM”), which is the primary component of asset-based fees, is not adjusted for foreign currency fluctuations. More than three-fifths of the AUM are invested in securities denominated in currencies other than the U.S. dollar, and accordingly, any such impact is excluded from the disclosed foreign currency adjusted variances.
- MSCI has presented Run Rate, a supplemental key operating metrics as part of this presentation.
- Run Rate estimates at a particular point in time the annualized value of the recurring revenues under our client license agreements (“Client Contracts”) for the next 12 months, assuming all Client Contracts that come up for renewal are renewed and assuming then-current currency exchange rates, subject to the adjustments and exclusions described below. For any Client Contract where fees are linked to an investment product’s assets or trading volume/fees, the Run Rate calculation reflects, for ETFs, the market value on the last trading day of the period, for futures and options, the most recent quarterly volumes and/or reported exchange fees, and for other non-ETF products, the most recent client-reported assets. Run Rate does not include fees associated with “one-time” and other non-recurring transactions. In addition, we add to Run Rate the annualized fee value of recurring new sales, whether to existing or new clients, when we execute Client Contracts, even though the license start date, and associated revenue recognition, may not be effective until a later date. We remove from Run Rate the annualized fee value associated with products or services under any Client Contract with respect to which we have received a notice of termination or non-renewal during the period and have determined that such notice evidences the client’s final decision to terminate or not renew the applicable products or services, even though such notice is not effective until a later date.

It is not possible to invest directly in an index. Exposure to an asset class or trading strategy or other category represented by an index is only available through third party investable instruments (if any) based on that index. MSCI does not issue, sponsor, endorse, market, offer, review or otherwise express any opinion regarding any fund, ETF, derivative or other security, investment, financial product or trading strategy that is based on, linked to or seeks to provide an investment return related to the performance of any MSCI index (collectively, "Index Linked Investments").
