

MSCI Inc.

INVESTOR PRESENTATION

August 15, 2023

Forward-Looking Statements

- This presentation contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995, including without limitation, MSCI's full-year 2023 guidance and long-term targets. These forward-looking statements relate to future events or to future financial performance and involve known and unknown risks, uncertainties and other factors that may cause our actual results, levels of activity, performance or achievements to be materially different from any future results, levels of activity, performance or achievements expressed or implied by these statements. In some cases, you can identify forward-looking statements by the use of words such as "may," "could," "expect," "intend," "plan," "seek," "anticipate," "believe," "estimate," "predict," "potential" or "continue," or the negative of these terms or other comparable terminology. You should not place undue reliance on forward-looking statements because they involve known and unknown risks, uncertainties and other factors that are, in some cases, beyond MSCI's control and that could materially affect actual results, levels of activity, performance or achievements.
- Other factors that could materially affect actual results, levels of activity, performance or achievements can be found in MSCI's Annual Report on Form 10-K for the fiscal year ended December 31, 2022 filed with the Securities and Exchange Commission ("SEC") on February 10, 2023 and in quarterly reports on Form 10-Q and current reports on Form 8-K filed or furnished with the SEC. If any of these risks or uncertainties materialize, or if MSCI's underlying assumptions prove to be incorrect, actual results may vary significantly from what MSCI projected. Any forward-looking statement in this presentation reflects MSCI's current views with respect to future events and is subject to these and other risks, uncertainties and assumptions relating to MSCI's operations, results of operations, growth strategy and liquidity. MSCI assumes no obligation to publicly update or revise these forward-looking statements for any reason, whether as a result of new information, future events, or otherwise, except as required by law.

Other Information

- Percentage changes and totals in this presentation may not sum due to rounding.
- Percentage changes refer to the comparable period in 2022, unless otherwise noted.
- All financial figures for the three months ended June 30, 2023 are unaudited unless otherwise noted.
- Foreign currency exchange rate fluctuations reflect the difference between the current period results as reported compared to the current period results recalculated using the foreign currency exchange rates in effect for the comparable prior period. While operating revenues adjusted for the impact of foreign currency fluctuations includes asset-based fees that have been adjusted for the impact of foreign currency fluctuations, the underlying assets under management (“AUM”), which is the primary component of asset-based fees, is not adjusted for foreign currency fluctuations. Approximately three-fifths of the AUM is invested in securities denominated in currencies other than the U.S. dollar, and accordingly, any such impact is excluded from the disclosed foreign currency-adjusted variances.
- Client type and/or client segment designations in this presentation may be subject to change from time to time depending on an individual client's facts and circumstances, among other factors.

shareholders**

Enabling banks, broker dealers, exchanges, custodians and others
improve the investment process with more transparency

MSCI Corporate Responsibility

January – July 2023

Environmental Sustainability

- Submitted fifth annual **CDP questionnaire**
- **Engaged with suppliers** to emphasize MSCI's sustainability expectations and requirements
 - ✓ Most of our suppliers received a letter from our CEO urging them to adopt science-based targets and report progress
 - ✓ Recognized as supplier engagement leader by CDP, marking us among top 8% of assessed companies
- **Published case study** demonstrating how MSCI climate tools can help drive sustainability goals

Social Practices

- Promoted long-term sustainability of **DE&I strategy** through external benchmarking and transparency
 - ✓ Participated in McKinsey's Women in the Workplace Survey (US and Canada) and Race in the Workplace Survey (US)
 - ✓ Released 2022 SASB report
- Piloted strategies to strengthen hybrid working model based on employee survey and focus group feedback
- Conducted pulse survey to **support our listening strategy** and **employee engagement**

Governance Practices

- Completed first **SOC 2 certification** of our newly developed Azure cloud environment
- Appointed MSCI **President and COO Baer Pettit** to MSCI Board of Directors, bringing his expertise and deep knowledge of MSCI, its people, clients, operations and value proposition to the Board
- Instituted **Board Committee rotations**, including all Committee Chairs. All Committee Chairs and Committee members remain independent
- Updated **board skills matrix** to focus on those categories the Governance and Corporate Responsibility Committee believes are most relevant to the current needs of the Board

MSCI Data and Technology Capabilities

Proven Ability to Handle Complex, Integrated and High-volume Workflows with Flexible and Scalable Solutions for Clients

To Stay Ahead of Client Demands, MSCI Will Deliver Everything We Do “As a Service”

Widespread Demand for MSCI's Offerings

Clients

- Asset managers
- Asset owners

Emerging Growth Opportunities

Run Rate

(US\$ in millions)

Expanding in attractive additional addressable markets

Note: Run Rate totals may include overlap between different client segments. ¹Includes Climate run rate reported in Index, ESG & Climate, Analytics and Private Asset segments. ²Excludes Analytics Enterprise Risk & Performance. ³Listed only. ⁴Represents total subscription run rate from wealth management client base. ⁵Includes ESG (ex. Climate) Research Run Rate, reported in the ESG & Climate, Analytics and Real Assets Segments, and ESG (ex. Climate) related Index subscription and asset-based fees Run Rate reported in the Index segment.

Innovation and Investment in Key Growth Areas

New Growth

Drive new business capabilities through new products and services

Examples:

- Climate
- Thematic Indexes
- Fixed income Indexes
- Private Assets

Scale

Expand existing products and capabilities to accelerate growth

Examples:

- Innovative Factors & ESG Indexes
- ESG securities coverage expansion
- Expanding Futures and Options

Efficiencies

Avoid and/or repurpose costs; achieve productivity gains

Examples:

- Cloud migration
- Streamline technology development
- Data process improvements

Triple-Crown Investment Criteria

High Returns

Projects must have a high return (ROI)

Quick Payback <3 Years

Earlier payback preferred

Strong Valuation

Prefer investments with greater impact to MSCI's valuation

Rigorous metric-driven approach to allocate capital across different business areas

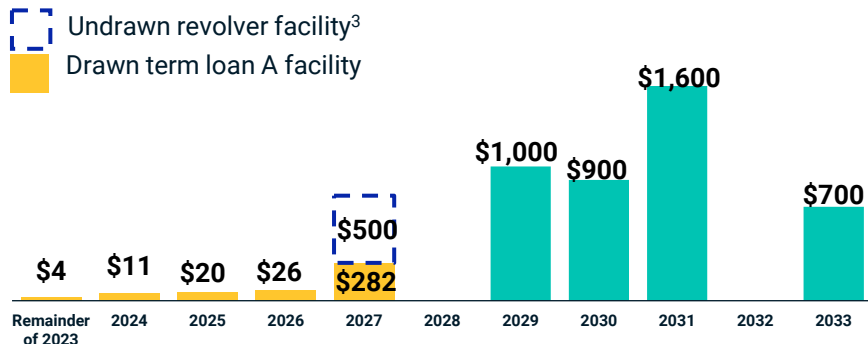

Strong Balance Sheet Provides Optionality

(US\$ in millions, unless otherwise noted)

Cash¹ and Debt as of 06/30/2023

Total Cash	\$792M
Total Debt ²	\$4,510M
Net Debt (total Debt less total cash)	\$3,718M
Total Debt / LTM Adjusted EBITDA	3.2x
Net Debt / LTM Adjusted EBITDA	2.7x

Unsecured Debt Maturity Profile

- In 2Q23, returned \$550.4M to shareholders through share repurchases of \$440.8M and quarterly dividends of \$109.6M.
- Strong balance sheet provides optionality
 - Next maturity not until 2027
- Disciplined and consistent approach to capital deployment
 - Triple-Crown framework to evaluate internal opportunities and MP&A (mergers, partnerships and acquisitions)

Credit Ratings⁴ as of 08/15/2023:

	Moody's	S&P	Fitch
Outlook	Positive	Stable	Stable
Long-term issuer rating	Ba1	BBB-	BBB-
Senior unsecured	Ba1	BBB-	BBB-

1. MSCI typically seeks to maintain minimum cash balances globally of approximately \$225.0 million to \$275.0 million for general operating purposes

2. Reflects gross debt, net of deferred financing fees and premium.

3. Aggregate revolver commitments of \$500.0 million until February 2027.

4. Credit ratings reflect the views of the different agencies and are not a recommendation to buy, sell or hold any security including our common stock or debt securities. These ratings are subject to periodic review and may be raised upward, downward or revoked at the sole discretion of the agencies.

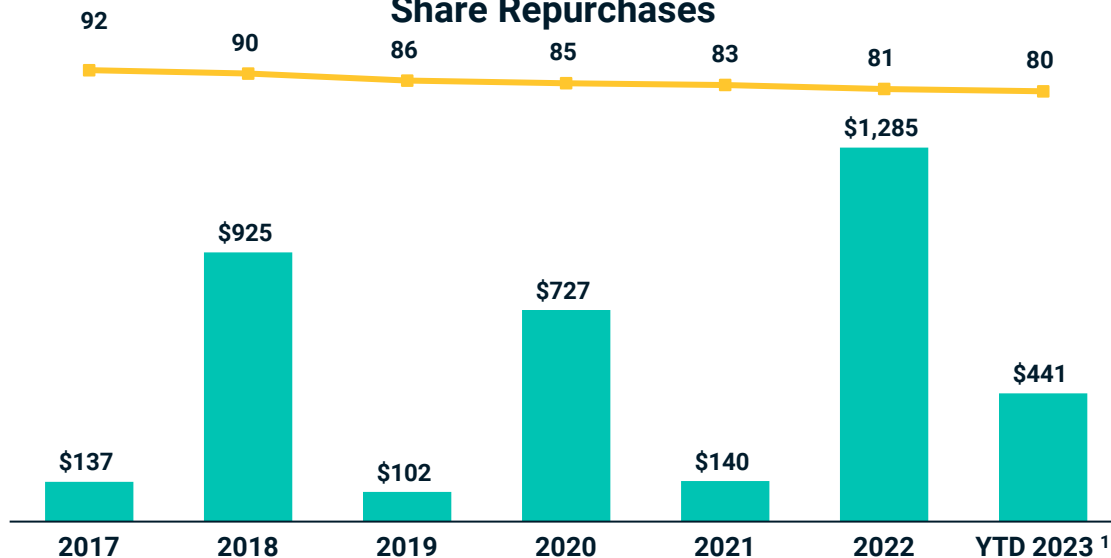

Disciplined Approach to Capital Deployment for Shareholders

Dividends (\$M)

- Meaningful dividend with strong historical growth
- Historical payout ratio target of 40% – 50% of Adjusted EPS
- For Q3 2023, cash dividend of \$1.38 per share declared by MSCI Board of Directors

Share Repurchases

— Weighted Average Diluted Shares Outstanding (in millions)

■ Aggregate Dollar Value of Shares Repurchased (\$ in millions)

Opportunistic Share Repurchases Capitalize on Attractive Values and Volatility

\$5.8B of Share Repurchases since 2012¹

Full-Year 2023 Guidance

Full-Year 2023 Guidance Item	Previous Guidance	Current Guidance
Operating Expense	\$1,090 to \$1,130 million	\$1,090 to \$1,130 million
Adjusted EBITDA Expense	\$965 to \$995 million	\$965 to \$995 million
Interest Expense ¹ (including amortization of financing fees)	\$184 to \$187 million	\$185 to \$187 million
Depreciation & Amortization Expense	\$125 to \$135 million	\$125 to \$135 million
Effective Tax Rate	17.0% to 20.0%	17.0% to 20.0%
Capital Expenditures	\$75 to \$85 million	\$80 to \$90 million
Net Cash Provided by Operating Activities	\$1,145 to \$1,195 million	\$1,145 to \$1,195 million
Free Cash Flow	\$1,060 to \$1,120 million	\$1,060 to \$1,120 million

¹A portion of our annual interest expense is from our variable rate Term Loan A facility, while the majority is from fixed rate senior unsecured notes. Changes to the secured overnight funding rate (SOFR) can cause our annual interest expense on the Term Loan A facility to vary.

MSCI's guidance for the year ending December 31, 2023 ("Full-Year 2023") is based on assumptions about a number of factors, in particular related to macroeconomic factors and the capital markets. These assumptions are subject to uncertainty, and actual results for the year could differ materially from our current guidance, including as a result of the uncertainties, risks and assumptions discussed in the "Risk Factors" and "Management's Discussion and Analysis of Financial Condition and Results of Operations" sections of our Annual Report on Form 10-K, as updated in quarterly reports on Form 10-Q and current reports on Form 8-K filed or furnished with the SEC. See "Forward-Looking Statements" on slide 2. The guidance also assumes among other things, that MSCI maintains its current debt levels.

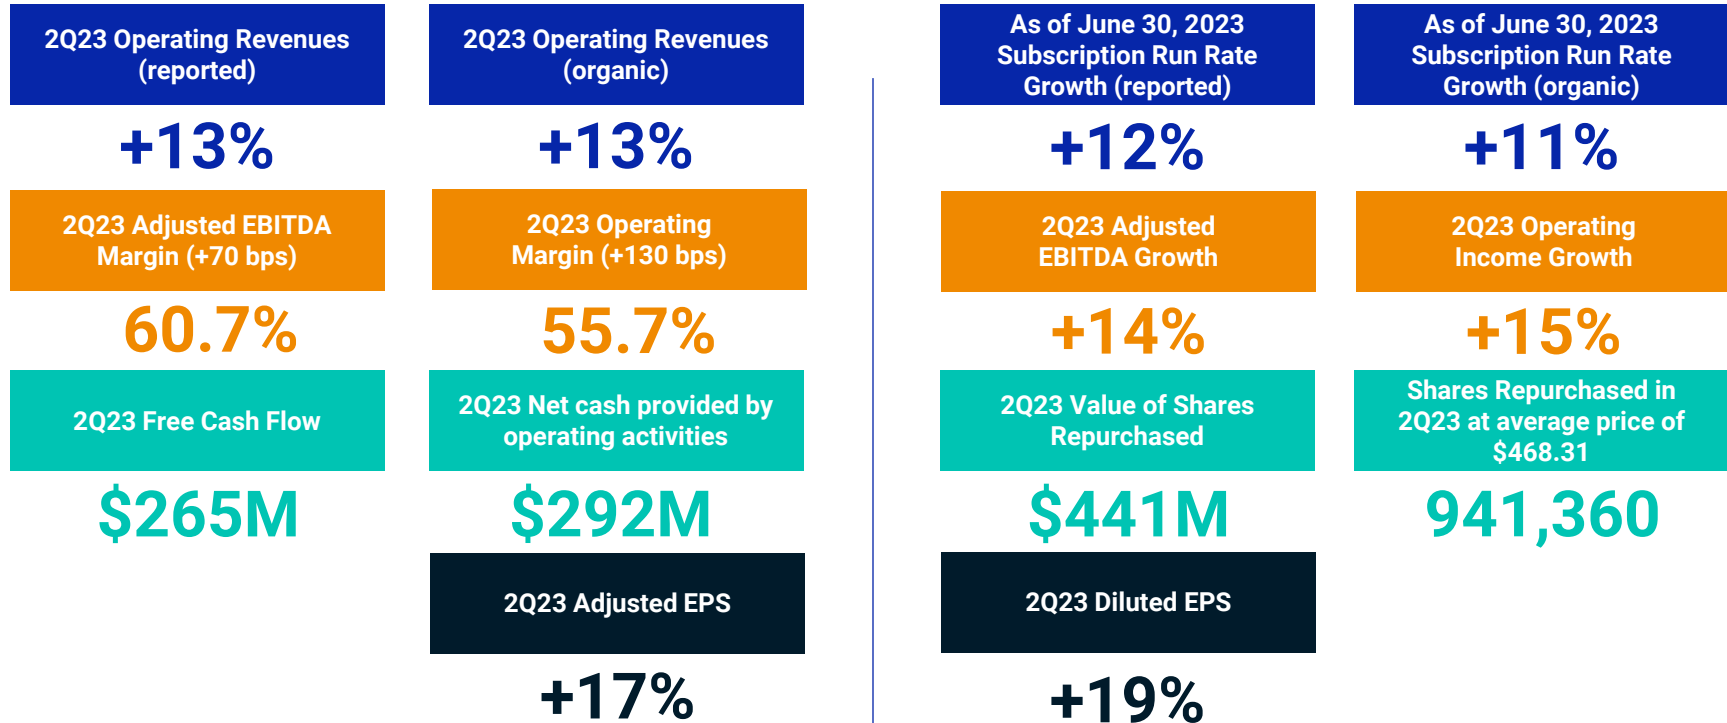

Long-term Targets

	Revenue Growth Rate ¹	Adj. EBITDA Expense Growth Rate	Adj. EBITDA Growth Rate	Adj. EBITDA Margin %
MSCI	Low Double Digit	High Single Digit to Low Double Digit	Low to Mid Teens	High 50s
Index	Low Double Digit	Low Double Digit		
Analytics	High Single Digit	Mid Single Digit		
ESG & Climate	Mid to High 20s	Mid to High 20s		
All Other - Private Assets	High Teens	Mid Teens

Index: Ongoing Client Demand for Customized Indexes for Specified Needs

1

- Define your benchmark needs beyond MSCI core indexes

2

- Develop it through customizable options

3

- Choose deployment options (e.g. Real Time/End of the Day, File Format etc.)

Customized indexes for specific needs use cases

Client can use the MSCI Custom Indexes to:

- Avoid benchmark misfit by using an index that more accurately reflects the investment strategy or constraints
- Benchmark socially responsible investment strategies (environmental, political, social)
- Carry out bespoke reporting, performance and risk analysis
- Manage currency risk via custom hedged indexes
- Outsource the calculation of specialized in-house indexes
- Comply with regulatory guidelines through the application of certain capping criteria
- Construct and issue index-linked products to meet specific investment themes applying investability and liquidity criteria

Benefits

Broad Coverage

Clients can customize and adapt any MSCI index such as Market Cap, Factor, Thematic, ESG and Climate to reflect their specific benchmark or product requirements.

Data Reliability

Clients can make use of MSCI's well-established, reliable index administration and calculation process – same as used for calculating all MSCI Standard indexes.

Rigorous Methodology

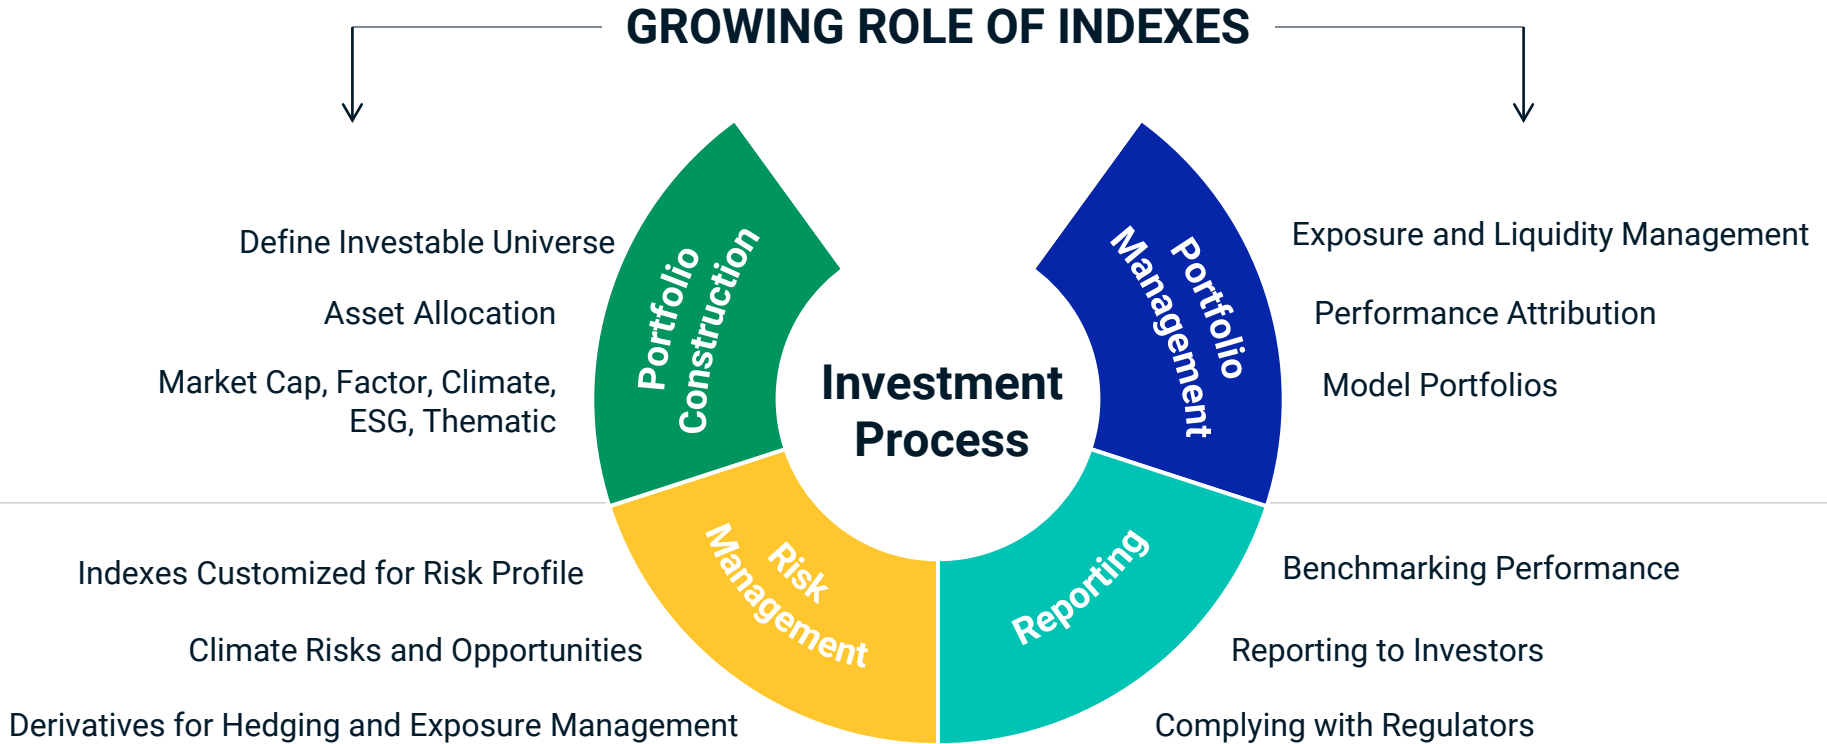

Investable, transparent and replicable indexes designed by clients, and with the same rigorous calculation and maintenance methodology as applied to the MSCI Standard Indexes.

Global Support

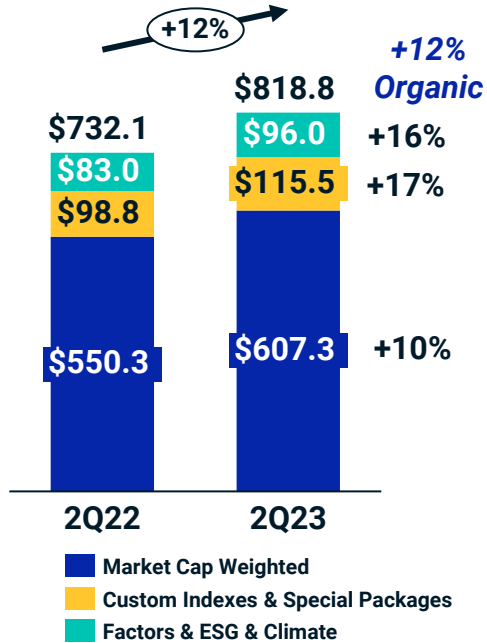

Cross-functional custom index team of experts in Research, Index Production, Technology and Product Management supports the administration of client-designed custom indexes.

Standardized production and capacity data including fossil fuels, reserves, fuel mix, etc.

Company Targets and Commitments Data

Forward-looking company-reported targets and commitments and companies' progress toward achieving those targets.

Environmental and Social Qualitative Data

Environmental management system, executive oversight of environmental management, carbon mitigation, uses low carbon energy, etc.

Labour policies, certified health and safety management system, diversity initiatives, product safety measures, etc.

Company Segment Data

Business and geographic revenue and asset segments mapped to key ESG risk exposures

Governance Data

Company level board, pay, ownership and accounting characteristics

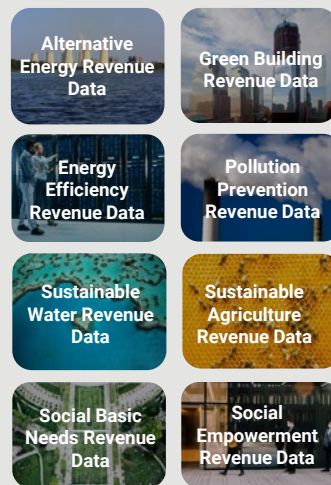

Environmental and Social Quantitative Data

Toxic emissions, water consumption, fatalities, layoffs, complaints, product recalls, regulatory warnings, workforce diversity, etc.

Sustainable Activity Revenue Data

Revenue from products / services with positive impact on the society and the environment.

Controversies and Global Norms Data

Controversies involving the impact of company operations, governance practices, and/or products and services.

Controversial Activity Involvement Data

Involvement in Tobacco, Alcohol, Nuclear Weapons, Cannabis, Abortion etc.

Global Sanctions Data

Datapoints relating to existing global sanctions – typically measuring involvement

MSCI ESG Research: Data to Help Clients with Critical Investing Decisions

Drill down into MSCI model

Helping clients understand the components that drive an MSCI ESG Research top level assessment by diving into the data.

Data to report on the ESG characteristics of portfolios

MSCI ESG data sets and specific metrics to report on portfolio exposures to different ESG issues.

Data to build thematic strategies

Helping clients optimize their portfolios by specific ESG themes and exposures.

Data to measure and communicate the impact of portfolios

Assess and communicate the net impact of portfolios on each of the 17 UN SDGs.

Data for shareholder engagement

Helping clients identify outliers that lag on specific ESG related risks to inform their engagement strategy.

Data to Build House Views

Helping clients build models based on weighing issues and themes they consider aligned to their ESG integration strategies.

MSCI ESG & Climate Data – Quality Assurance

MSCI ESG & Climate products are based on **7 million data points** per month with inputs from more than **4,700 news sources, 150 alternative data sources, 12,000 corporate websites** and submissions from more than **5,200 corporate issuers**.

Data Governance

Overarching Governance principles through data methodology, cataloging, data structure, QA methodologies, data receipts **help maintain data consistency and quality**.

Domain Expertise

Global Industry expertise (11 Sectors), **deep and broad content knowledge** (10 differentiated domain expertise) coupled with **strong local market presence**.

Data Quality

We look at a broad range of dimensions when defining quality: **completeness, exhaustivity, timeliness, accuracy** as well as **traceability back to source** (evidences).

Technology Driven

We leverage technology in all steps of our content creation, to provide scale, speed, and unique and differentiated content.

Data Science Powered

We are using various **Data Science techniques** ranging from **NLP** for document identification, classification and data extraction, to **ML models** to identify contextual anomalies.

Our Real Assets Solutions

Game-changing data

MSCI Real Assets is the only global partner in data, portfolio services and insights for investments in commercial real estate and infrastructure assets.

Market Data Products

Macro and micro commercial real estate data related to properties, performance, transactions, pricing, markets, capital flows and investment trends, including:

- Real Capital Analytics:
 - \$42T+ of transactions covering property transactions, Mortgage Debt Intelligence®, Construction Intel and Climate Intel
 - A global investor universe with 200,000+ investors, lenders, brokers and deal participants
- Property Intel: UK and Nordics property search platform that collects, matches and visualizes data including owner/occupier, valuation, market, leasing, planning, zoning and construction data
- Index Intel: real data collected directly from asset managers, pension funds, insurance companies and REITs to measure performance and risk

Portfolio Services Products

Analytics for stronger, sustainable portfolios, strategies and decisions – across the entire investment process:

- Portfolio Performance Insights:
 - Headline performance & risk of your global holdings compared with industry standard or custom benchmarks
 - Attribution of property portfolio, fund, asset and tenancy performance
- Portfolio Climate Insights: forward-looking return-based valuation assessment of climate risk and systematic disclosure tools across commercial and residential real estate portfolios
- Portfolio Income Insights: providing forward-looking income risk monitoring and property or tenant due diligence assessment based on dataset of 500m companies globally

MSCI Property Indexes and Property Fund Indexes

Over 3000+ Real Assets Indexes created to help you track performance and measure risk of direct real estate investments, including:

- MSCI Global Property Index (GPI)
- Asia Pacific, North America, EMEA regional indexes plus sub-regional composites
- MSCI Property Indexes for 30+ countries
- MSCI Real Capital Analytics CPPI™ Commercial Property Prices Indexes
- MSCI Global quarterly infrastructure asset index

70+ headlined indexes • 2000+ clients • 170+ countries • 950+ data contributors

³ US = ETFs linked to MSCI equity indexes, the majority of whose weight is comprised of securities in MSCI Developed Market (DM) countries, primarily or exclusively in the US; DM ex US = ETFs linked to MSCI equity indexes, the majority of whose weight is comprised of securities in MSCI DM countries other than the US; EM = ETFs linked to MSCI equity indexes, the majority of whose weight is comprised of securities that are not in MSCI DM countries. Note: The AUM in equity ETFs also includes AUM in Exchange Traded Notes, the value of which is less than 1% of the AUM amounts presented.

Use of Non-GAAP Financial Measures

- MSCI has presented supplemental non-GAAP financial measures as part of this earnings presentation. Reconciliations are provided in the following slides below that reconcile each non-GAAP financial measure with the most comparable GAAP measure. The non-GAAP financial measures presented in this earnings release should not be considered as alternative measures for the most directly comparable GAAP financial measures. The non-GAAP financial measures presented in this earnings release are used by management to monitor the financial performance of the business, inform business decision-making and forecast future results.
- “Adjusted EBITDA” is defined as net income before (1) provision for income taxes, (2) other expense (income), net, (3) depreciation and amortization of property, equipment and leasehold improvements, (4) amortization of intangible assets and, at times, (5) certain other transactions or adjustments, including, when applicable, certain non-recurring acquisition-related integration and transaction costs.
- “Adjusted EBITDA expenses” is defined as operating expenses less depreciation and amortization of property, equipment and leasehold improvements and amortization of intangible assets and, at times, certain other transactions or adjustments, including, when applicable, certain non-recurring acquisition-related integration and transaction costs.
- “Adjusted EBITDA margin” is defined as adjusted EBITDA divided by operating revenues.
- “Adjusted net income” and “adjusted EPS” are defined as net income and diluted EPS, respectively, before the after-tax impact of: the amortization of acquired intangible assets, including the amortization of the basis difference between the cost of the equity method investment and MSCI’s share of the net assets of the investee at historical carrying value and, at times, certain other transactions or adjustments, including, when applicable, the impact related to certain non-recurring acquisition-related integration and transaction costs and the impact related to gain from changes in ownership interest of investees.
- “Capex” is defined as capital expenditures plus capitalized software development costs.
- “Free cash flow” is defined as net cash provided by operating activities, less Capex.
- “Organic operating revenue growth” is defined as operating revenue growth compared to the prior year period excluding the impact of acquired businesses, divested businesses and foreign currency exchange rate fluctuations.
- Asset-based fees ex-FX does not adjust for the impact from foreign currency exchange rate fluctuations on the underlying assets under management (“AUM”).
- We believe adjusted EBITDA, adjusted EBITDA margin and adjusted EBITDA expenses are meaningful measures of the operating performance of MSCI because they adjust for significant one-time, unusual or non-recurring items as well as eliminate the accounting effects of certain capital spending and acquisitions that do not directly affect what management considers to be our ongoing operating performance in the period.
- We believe adjusted net income and adjusted EPS are meaningful measures of the performance of MSCI because they adjust for the after-tax impact of significant one-time, unusual or non-recurring items as well as eliminate the impact of any transactions that do not directly affect what management considers to be our ongoing operating performance in the period. We also exclude the after-tax impact of the amortization of acquired intangible assets and amortization of the basis difference between the cost of the equity method investment and MSCI’s share of the net assets of the investee at historical carrying value, as these non-cash amounts are significantly impacted by the timing and size of each acquisition and therefore not meaningful to the ongoing operating performance in the period.
- We believe that free cash flow is useful to investors because it relates the operating cash flow of MSCI to the capital that is spent to continue and improve business operations, such as investment in MSCI’s existing products. Further, free cash flow indicates our ability to strengthen MSCI’s balance sheet, repay our debt obligations, pay cash dividends and repurchase shares of our common stock.
- We believe organic operating revenue growth is a meaningful measure of the operating performance of MSCI because it adjusts for the impact of foreign currency exchange rate fluctuations and excludes the impact of operating revenues attributable to acquired and divested businesses for the comparable prior year period, providing insight into our ongoing operating performance for the period(s) presented.
- We believe that the non-GAAP financial measures presented in this earnings presentation facilitate meaningful period-to-period comparisons and provide a baseline for the evaluation of future results.
- Adjusted EBITDA expenses, adjusted EBITDA margin, adjusted EBITDA, adjusted net income, adjusted EPS, Capex, free cash flow and organic operating revenue growth are not defined in the same manner by all companies and may not be comparable to similarly-titled non-GAAP financial measures of other companies. These measures can differ significantly from company to company depending on, among other things, long-term strategic decisions regarding capital structure, the tax jurisdictions in which companies operate and capital investments. Accordingly, the Company’s computation of these measures may not be comparable to similarly-titled measures computed by other companies.

Use of Operating Metrics

- MSCI has presented supplemental key operating metrics as part of this earnings presentation, including Retention Rate, Run Rate, subscription sales, subscription cancellations and non-recurring sales.
- Retention Rate is an important metric because subscription cancellations decrease our Run Rate and ultimately our future operating revenues over time. The annual Retention Rate represents the retained subscription Run Rate (subscription Run Rate at the beginning of the fiscal year less actual cancels during the year) as a percentage of the subscription Run Rate at the beginning of the fiscal year.
- The Retention Rate for a non-annual period is calculated by annualizing the cancellations for which we have received a notice of termination or for which we believe there is an intention not to renew or discontinue the subscription during the non-annual period, and we believe that such notice or intention evidences the client's final decision to terminate or not renew the applicable agreement, even though such notice is not effective until a later date. This annualized cancellation figure is then divided by the subscription Run Rate at the beginning of the fiscal year to calculate a cancellation rate. This cancellation rate is then subtracted from 100% to derive the annualized Retention Rate for the period.
- Retention Rate is computed by operating segment on a product/service-by-product/service basis. In general, if a client reduces the number of products or services to which it subscribes within a segment, or switches between products or services within a segment, we treat it as a cancellation for purposes of calculating our Retention Rate except in the case of a product or service switch that management considers to be a replacement product or service. In those replacement cases, only the net change to the client subscription, if a decrease, is reported as a cancel. In the Analytics and the ESG and Climate operating segments, substantially all product or service switches are treated as replacement products or services and netted in this manner, while in our Index and Real Assets operating segments, product or service switches that are treated as replacement products or services and receive netting treatment occur only in certain limited instances. In addition, we treat any reduction in fees resulting from a down-sell of the same product or service as a cancellation to the extent of the reduction. We do not calculate Retention Rate for that portion of our Run Rate attributable to assets in index-linked investment products or futures and options contracts, in each case, linked to our indexes.
- Run Rate estimates at a particular point in time the annualized value of the recurring revenues under our client license agreements ("Client Contracts") for the next 12 months, assuming all Client Contracts that come up for renewal, or reach the end of the committed subscription period, are renewed and assuming then-current currency exchange rates, subject to the adjustments and exclusions described below. For any Client Contract where fees are linked to an investment product's assets or trading volume/fees, the Run Rate calculation reflects, for ETFs, the market value on the last trading day of the period, for futures and options, the most recent quarterly volumes and/or reported exchange fees, and for other non-ETF products, the most recent client-reported assets. Run Rate does not include fees associated with "one-time" and other non-recurring transactions. In addition, we add to Run Rate the annualized fee value of recurring new sales, whether to existing or new clients, when we execute Client Contracts, even though the license start date, and associated revenue recognition, may not be effective until a later date. We remove from Run Rate the annualized fee value associated with products or services under any Client Contract with respect to which we have received a notice of termination, non-renewal or an indication the client does not intend to continue their subscription during the period and have determined that such notice evidences the client's final decision to terminate or not renew the applicable products or services, even though such notice is not effective until a later date.
- "Organic recurring subscription Run Rate growth" is defined as the period over period Run Rate growth, excluding the impact of changes in foreign currency and the first year impact of any acquisitions. It is also adjusted for divestitures. Changes in foreign currency are calculated by applying the currency exchange rate from the comparable prior period to current period foreign currency denominated Run Rate.
- Sales represents the annualized value of products and services clients commit to purchase from MSCI and will result in additional operating revenues. Non-recurring sales represent the actual value of the customer agreements entered into during the period and are not a component of Run Rate. New recurring subscription sales represent additional selling activities, such as new customer agreements, additions to existing agreements or increases in price that occurred during the period and are additions to Run Rate. Subscription cancellations reflect client activities during the period, such as discontinuing products and services and/or reductions in price, resulting in reductions to Run Rate. Net new recurring subscription sales represent the amount of new recurring subscription sales net of subscription cancellations during the period, which reflects the net impact to Run Rate during the period.
- Total gross sales represent the sum of new recurring subscription sales and non-recurring sales. Total net sales represent the total gross sales net of the impact from subscription cancellations.

- (1) We have not provided a full line-item reconciliation for total operating expenses to adjusted EBITDA expenses for this future period because we believe such a reconciliation would imply a degree of precision and certainty that could be confusing to investors and we are unable to reasonably predict certain items contained in the GAAP measure without unreasonable efforts. This is due to the inherent difficulty of forecasting the timing or amount of various items that have not yet occurred and are out of the Company's control or cannot be reasonably predicted. For the same reasons, the Company is unable to address the probable significance of the unavailable information. Forward-looking non-GAAP financial measures provided without the most directly comparable GAAP financial measures may vary materially from the corresponding GAAP financial measures. See "Forward-Looking Statements" above.
- (2) Incremental and non-recurring costs attributable to acquisitions directly related to the execution of the transaction and integration of the acquired business that have occurred no later than 12 months after the close of the transaction.

(1) We have not provided a line-item reconciliation for free cash flow to net cash from operating activities for this future period because we believe such a reconciliation would imply a degree of precision and certainty that could be confusing to investors and we are unable to reasonably predict certain items contained in the GAAP measure without unreasonable efforts. This is due to the inherent difficulty of forecasting the timing or amount of various items that have not yet occurred and are out of the Company's control or cannot be reasonably predicted. For the same reasons, the Company is unable to address the probable significance of the unavailable information. Forward-looking non-GAAP financial measures provided without the most directly comparable GAAP financial measures may vary materially from the corresponding GAAP financial measures. See "Forward-Looking Statements" above.

Second Quarter 2023 Reconciliation of Operating Revenue Growth to Organic Operating Revenue Growth (UNAUDITED)
